

PETITION TO THE UNIVERSITY OF WISCONSIN BOARD OF REGENTS

to Restore Public Access to the Upper Dells of the Wisconsin River

We the undersigned hereby petition the University of Wisconsin Board of Regents to:

Authorize removal of the fence and restore safe public access to the Wisconsin River on Hwy N, aka Stand Rock Road just north of the Upham Woods entrance in Juneau County. The fence was installed by Upham Woods in 2016 restricting public accessibility to the Upper Dells of the Wisconsin River. For elders and those with disabilities, as well as the general public, it has been the historic accessible place to put in canoes and kayaks since the flowage was created by the Kilbourn Dam in 1909.

We prevail upon you to uphold the mandate of ***The Wisconsin Idea*** and the University's commitment to public service and outreach through UW Extension to remove the fence and restore access to the river.

Pursuant to Wisconsin Constitution Article 1: Equality, Inherent Rights; Section 4: Right to Assemble and Petition.
